

Charles Bruning Company *Division of Addressograph Multigraph Corp*

1800 WEST CENTRAL ROAD MT. PROSPECT, ILLINOIS 60056 PHONE CL 5-1900

Your interest in Mr. Bruning's products is sincerely appreciated, and we're attaching some literature as you requested.

Even though all means of communication are employed to present our messages to people such as yourself, we find that business channels and operations are so complex today that we do not entirely succeed in telling the full story of the 5000-plus Bruning product line. Perhaps you will keep us in mind as an experienced source sincerely dedicated to help make your working day easier.

Bruning offices are located throughout the United States and Canada. There is probably one in your area.

A Bruning Representative will be calling on you in the near future. Should you require more information before then, do not hesitate to contact us again. Our corporate theme is helping people communicate - we're anxious to do just that.

Sincerely,

Art Harlan
